EARLY CHILDHOOD EDUCATOR ONLINE WEBINAR

Tomorrow's battle is won during today's practice.

- Samurai maxim

In an age where we are inundated with research of how to build better brains and create smarter children, we may be forgetting that a child is much more than a cognitive system; they are a whole human being. We forget that our duty is to be one of the many people in their life that will help guide them in their journey towards discovering who they are.

In this workshop, we will explore how we can take the ancient principles of the Warrior Code, a code used by Apache Warriors to Medieval Knights to the Samurai of Japan and apply them to our work with children. Not as means to fight wars, but as a means to truly understand oneself and grow.
